We were glad to make their wish come true!

Sharon Briggs Artist Statement

Sharon realized she had a gift at a very young age. As long as it was "creating", with some kind of medium, she was in her element. She is passionate about capturing things that are created by her own creativity as well as trying to capture a moment or a symbolized moment. Something that can make her audience remember a moment. Her two favorite avenues are painting and sculpture. She has traveled extensively and is influenced by many artists and styles. A recent trip to Italy inspired her in capturing reflection in glass, as well as one of the best Italian traditions; wine.

"Art is the structure of my being. If I were deprived of it, I would no longer be me."

Bob Esposito Artist Statement

Bob Esposito was born and raised in Central Illinois. He has always been drawn to nature and its relentless realm of beauty. His desire to recreate nature with its form and structure has been pursued for over thirty years in the field of taxidermy. The challenges created by the development of each piece from design and construction to completion, provide a never ending pursuit to give nature the respect it deserves. The diversity of his future work will pay tribute not only to nature, but to the creativity of evolution. Emphasis will be put on the stylistic combination of mixed media.
